

## Rural issues Consultation

- Building houses everywhere but not building anymore provisions I.e: schools, doctors etc.
- Litter is a real issue – not enough bins or litter picks from the council.
- Dog fouling – Not enough bins so people either don't pick it up or through the bag down.
- Cost of buses and not enough of them to certain areas – For example last bus to Market Weighton is 19:32.
- Pot holes are becoming more and more of a problem, especially on rural roads.
- Dangerous trees that are leaning towards the road need to be monitored or secured.
- More safe places for young people to attend in rural areas – Youth clubs etc.
- More rural policing.
- More solar farms, wind farms and recycling areas.
